PING PONG

LEGAL POLICY PACKAGE

Phoenix Media Worldwide LLC d/b/a Ping Pong

Revised draft: October 27, 2026 | Effective upon publication following any required notice and consent

Website: https://pingponglivechat.com

DRAFT FOR BUSINESS IMPLEMENTATION AND ATTORNEY REVIEW — NOT YET APPROVED FOR PUBLICATION

Important Publication Notice

This coordinated draft describes a user-generated-content, streaming, digital-gifting, and creator-monetization platform that may offer limited, age-appropriate accounts from age 13 with verified parent or legal guardian consent, only where legally permitted. The platform must implement enforceable age gates and separate adult-only features. It must be reviewed by qualified legal counsel before publication, including for youth online safety, regional social-media age restrictions, child and teen privacy, parental authorization, payments, creator compensation, biometric processing, and app-store compliance.

Do not publish this draft until all bracketed contact fields are completed, required parental verification and teen-safety controls actually work, the company has reviewed applicable regional age rules, and the policies match the deployed app. A parent cannot waive nonwaivable child-safety or privacy obligations owed by Ping Pong. In particular, if Florida Statutes § 501.1736 applies to Ping Pong, 13-year-old Florida residents cannot open accounts even with parental consent, and 14- and 15-year-olds require parental consent.

Package Contents

1. Terms of Use
2. Privacy Policy
3. Community Guidelines
4. Age & Identity Verification Policy
5. Creator Monetization Agreement
6. Virtual Coins & Gifts Policy
7. Refund & Billing Policy
8. Copyright & DMCA Policy
9. Parent or Guardian Consent and Responsibility Addendum
10. Developer / App Store Implementation Checklist
11. Launch Completion Checklist

PING PONG TERMS OF USE

Applies to the Ping Pong app, website, and related services

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

These Terms of Use ("Terms") form a legally binding agreement between you and Phoenix Media Worldwide LLC, doing business as Ping Pong ("Ping Pong," "Company," "we," "us," or "our"). These Terms govern access to and use of the Ping Pong mobile application, website, live-streaming platform, short-video features, private video features, virtual coins, virtual gifts, creator programs, communications tools, and related technologies (collectively, the "Platform").

By creating or using an account, you agree to these Terms. For a user aged 13–17, a verified parent or legal guardian must review and expressly accept these Terms on behalf of the minor before the minor may open or use an account, to the extent permitted by law. A minor account is not active until required verification and consent steps have been completed. If you do not agree, do not use Ping Pong.

1. Age Eligibility, Legal Restrictions, and Parental Consent

Ping Pong may permit users aged 13 or older. Users younger than 13 may not create or maintain an account. Users aged 13–17 may create or maintain an account only after Ping Pong verifies consent from a parent or legal guardian, confirms eligibility under applicable law, and enables an age-restricted account. Where a jurisdiction imposes a higher minimum age or additional limits, those laws control. In Florida, where § 501.1736 applies to the Platform, users younger than 14 may not create an account even with parental consent; users aged 14–15 must obtain parental consent. An adult must not open an account as a workaround for an ineligible minor.

Ping Pong may use reasonable age-assurance and parent/guardian verification before account activation, during account use, or before enabling a restricted feature. The consenting adult must be at least 18 and have legal authority to grant consent. Ping Pong may restrict access, require renewed consent, or disable accounts if consent cannot be verified or is withdrawn. Identity verification may use age-appropriate, privacy-preserving methods; unnecessary identity documents should not be collected from minors.

Users and guardians must give truthful age, identity, relationship, and authorization information. Providing false information, using another person’s identification, or bypassing controls may lead to restriction or termination. Parental permission never overrides a legal age limit or a feature-specific age restriction.

1A. Parent or Legal Guardian Responsibility for Minor Accounts

A parent or legal guardian who authorizes an account for a person aged 13–17 represents that they have legal authority to consent, have reviewed these Terms and applicable privacy notices, and will provide reasonable supervision and guidance. They agree to explain the Community Guidelines and online safety risks to the minor; help safeguard the account and devices; monitor

permitted use as appropriate; and promptly report unauthorized activity, safety concerns, or suspected account compromise.

To the fullest extent allowed by applicable law, the consenting parent or legal guardian accepts contractual responsibility for the minor's use of the authorized account, including violations of these Terms, content posted or transmitted by the minor, and reasonably foreseeable losses or third-party claims caused by the minor's unlawful or wrongful conduct. Where permitted by law and subject to applicable defenses, the consenting adult agrees to reimburse or indemnify Ping Pong for third-party claims and reasonable costs directly arising from such conduct. Responsibility is limited to matters lawfully attributable to the consenting adult or minor and does not automatically apply to acts beyond their legal responsibility.

This provision does NOT release Ping Pong from its own negligence, wrongful acts, statutory duties, child-protection duties, privacy and security obligations, or any liability that cannot legally be disclaimed or transferred. Nothing here waives a minor's legal rights, converts a minor into an adult for contracting purposes, or requires a guardian to waive nonwaivable consumer protections.

1B. Age-Restricted Features and Safety Controls

Accounts for users aged 13–17 are limited to age-appropriate functionality actually designated by Ping Pong. Unless a separate compliant program is established and legally approved, minors may not buy or send Coins or Gifts, purchase subscriptions, receive creator payouts, host or join public live broadcasts or live battles, enter private video rooms, or use any adult-only features. Unrestricted direct messaging between adults and minors is disabled. Minor accounts should be private by default, with age-appropriate content filtering, reporting, blocking, parental consent withdrawal, and safety escalation. Access to any additional feature requires a separate legal and safety review and suitable technical controls.

Ping Pong may refuse or discontinue a teen account where a safe and lawful user experience cannot be provided. Feature restrictions depend on verified age and location; parents cannot override a legal prohibition.

2. Account Registration and Security

Users must provide accurate account details and protect credentials. For an authorized minor account, the verified parent or guardian is responsible for reasonable account supervision and authorized activities to the extent permitted by law. Users should report any unauthorized access promptly.

You may not impersonate another person, sell or rent an account, knowingly share access with an unauthorized person, or create accounts to evade enforcement.

You should promptly notify Ping Pong if you believe an account or payment method has been compromised.

3. Platform Features

Ping Pong may provide videos, profiles, comments, messaging, live streaming, multi-participant rooms, live battles, private sessions, virtual coins, virtual gifts, rankings, memberships, creator monetization, AI-assisted editing, augmented-reality features, and related services. Feature access differs by verified age, region, and safety eligibility; listing a feature here does not mean it is accessible to minors.

Features may be introduced, modified, restricted, suspended, or discontinued subject to law and required notice. All teen-user permissions must be enforced on the server and must not depend solely on a self-declared birthdate.

4. User Content and License

You retain ownership of original content you create, subject to rights of third parties.

By uploading or making content available through Ping Pong, you grant Phoenix Media Worldwide LLC a worldwide, non-exclusive, royalty-free, sublicensable license to host, store, reproduce, transmit, display, distribute, format, adapt, and moderate content as necessary to operate and secure the Platform. Use of a minor's content for promotional purposes beyond ordinary service operation requires separate, valid consent where legally required and must respect applicable child and teen privacy rules.

This license does not transfer ownership of your content. It may continue as reasonably necessary for backups, legal compliance, fraud prevention, safety investigations, dispute resolution, and other lawful retention obligations.

You represent that you have the rights and permissions required to submit or broadcast your content.

5. Live Streaming, Battles, and Guest Participation

Eligible users are responsible for lawful conduct in live streams, battles, guest rooms, and other interactive features. Hosting or joining live sessions and battles is limited to verified adults under this draft youth-safety model.

Hosts may be able to designate moderators, invite or remove guests, mute users, block users, and manage participation. Ping Pong may interrupt or terminate a live stream when necessary to address safety, policy, security, or legal concerns.

Battle scores, multipliers, rankings, and similar engagement metrics are Platform features and do not represent cash, property, or guaranteed compensation.

6. Private Video Sessions

Only eligible verified adults aged 18 or older may participate in private video sessions. No parental consent can authorize a minor to enter these adult-only rooms.

Creators may be permitted to select an approved virtual gift or other authorized Platform requirement for entry to a private session. The access requirement must be displayed through authorized Platform functionality.

Sending a gift does not purchase another person, create a right to prohibited conduct, or prevent any participant from ending the session. All Platform rules apply in private sessions.

Ping Pong may investigate reported private-session conduct and may preserve relevant records where reasonably necessary for safety, fraud prevention, enforcement, or legal compliance.

7. Prohibited Content and Conduct

You may not use Ping Pong for unlawful, fraudulent, threatening, exploitative, abusive, deceptive, or dangerous conduct.

Prohibited conduct includes harassment, credible threats, hateful abuse, sexual exploitation, exploitation or endangerment of minors, fraud, scams, impersonation, malicious software, hacking, unauthorized automation, payment manipulation, ranking manipulation, evasion of bans, intellectual-property infringement, unauthorized disclosure of private information, and facilitation of illegal conduct.

Ping Pong may remove content or restrict features when it reasonably determines that Platform rules have been violated.

8. Child Safety and Zero-Tolerance Rule

Ping Pong prohibits child sexual exploitation, grooming, trafficking, sexualization of minors, and content that endangers minors. Suspected violations may be reported to appropriate authorities or legally authorized organizations where required or appropriate.

9. Virtual Coins

Coins are licensed virtual items usable only through authorized Platform functions; they are not money, bank deposits, securities, cryptocurrency, or investments. Purchasing, sending, or redeeming Coins is restricted to verified adult accounts in this draft youth-safety model.

Coin purchases are available only to eligible verified adults and only through payment methods permitted for the user's device, region, and distribution channel. Purchased credits are administered consistently with applicable store and consumer rules.

Coins may not be sold, exchanged, transferred, or traded outside authorized Ping Pong features.

10. Virtual Gifts

Eligible verified adults may use Coins to send virtual Gifts through approved functions. Gifts are virtual Platform items, not direct transfers of money, investments, ownership interests, or legal tender. Gift purchases or transfers are not available to minor accounts under this model.

Once validly sent and consumed, a gift may be non-refundable except where required by applicable law, app-store rules, payment-provider rules, or this package.

Fraudulent, reversed, unauthorized, or disputed transactions may be adjusted in creator balances where legally permitted.

11. Creator Monetization

Creator monetization is available only to eligible verified adults aged 18 or older, subject to identity and tax verification, valid payout details, program eligibility, geographic availability, fraud controls, and Platform rules.

Under the current Ping Pong creator program, eligible creators may receive 70% of Eligible Net Gift Revenue and Ping Pong may retain 30%. Eligible Net Gift Revenue may exclude or deduct refunds, chargebacks, fraudulent transactions, payment-processing costs, app-store fees or commissions, required taxes or withholding, promotional credits, and other disclosed transaction-level deductions.

Creator earnings are not guaranteed and are subject to the separate Creator Monetization Agreement.

12. Purchases, Billing, and Refunds

Payments may be processed by Apple, Google, Stripe, or another authorized provider depending on the transaction, device, region, distribution channel, and applicable platform rules.

Purchases may be initiated only by eligible verified adults. Completing a purchase authorizes the applicable payment provider to charge the selected payment method, subject to applicable store and consumer laws. Accounts for minors may not initiate purchases, including through a parent's saved payment method, unless Ping Pong separately implements and legally authorizes an age-appropriate purchase program.

Digital goods that have been delivered or consumed may be non-refundable except where required by law or applicable payment-platform rules. Additional terms appear in the Refund & Billing Policy.

13. Memberships and Subscriptions

Subscriptions, VIP memberships, and other recurring services are restricted to eligible verified adults. Prices, billing frequency, renewal terms, and cancellation methods must be disclosed before a purchase and comply with app-store and consumer-protection rules.

14. Creator Independence

Unless a separate written agreement expressly provides otherwise, creators are independent Platform users and are not employees, agents, partners, franchisees, or representatives of Phoenix Media Worldwide LLC. Creators are responsible for their tax obligations except for amounts Ping Pong is legally required to collect or withhold.

15. Moderation and Enforcement

Ping Pong may use authorized moderators, trained reviewers, reports, automated systems, and safety escalation to protect the Platform. Minor accounts require heightened safeguards, appropriate reporting routes, and prompt response to risks of exploitation or harassment.

Enforcement may include warnings, content removal, live-stream interruption, feature restrictions, messaging restrictions, gifting restrictions, monetization restrictions, temporary suspension, permanent termination, and reports to appropriate authorities where legally required or appropriate.

16. Reporting and Blocking

Ping Pong may provide tools that allow users to report objectionable content or conduct and block other users. Users may not abuse reporting systems or intentionally submit fraudulent reports. Attempts to evade another user's block may result in enforcement.

17. Intellectual Property

The Ping Pong name, software, logos, graphics, interfaces, designs, trademarks, service marks, and proprietary Platform technology owned or licensed by Phoenix Media Worldwide LLC are protected by applicable intellectual-property law.

Except as expressly permitted, you may not reproduce, distribute, modify, reverse engineer, sell, or commercially exploit Ping Pong intellectual property.

18. Copyright Complaints

Ping Pong respects intellectual-property rights and maintains procedures for copyright complaints and counter-notifications. The separate Copyright & DMCA Policy is incorporated into these Terms.

19. Privacy

Use of Ping Pong is also governed by the Ping Pong Privacy Policy, which describes the collection, use, disclosure, retention, and protection of personal information.

20. Safety and Monitoring

To protect users and the Platform, Ping Pong may review reports, content, transactions, live activity, account information, and certain Platform interactions through authorized personnel and automated systems where permitted by law.

Internal review and monitoring access is restricted to authorized personnel on a need-to-know basis. Minors' information and safety reports receive heightened protection. Moderation does not guarantee that every violation will be prevented; this statement does not limit legally mandated safety obligations.

21. Third-Party Services

Ping Pong may rely on third-party providers for cloud hosting, payments, live-streaming infrastructure, analytics, identity verification, communications, moderation, app distribution, and other services. Third-party services may be subject to separate terms and privacy policies.

22. Artificial Intelligence Features

Ping Pong may provide AI-assisted editing, captions, recommendations, moderation, safety tools, search, or media enhancement. AI-generated or AI-assisted outputs may contain inaccuracies. Users remain responsible for content they choose to publish.

23. Suspension and Termination

Ping Pong may suspend, restrict, or terminate access because of violations, fraud, security concerns, payment abuse, false age declarations, missing or withdrawn parental consent, unlawful access based on age or location, repeated copyright violations, or legal requirements.

Where appropriate, an appeal process may be available. An appeal does not guarantee restoration.

24. Platform Availability

Ping Pong may experience maintenance, technical failures, third-party outages, security events, or other interruptions. We do not guarantee uninterrupted or error-free availability.

25. Disclaimer of Warranties

To the fullest extent permitted by law, the Platform is provided on an "AS IS" and "AS AVAILABLE" basis. Ping Pong does not guarantee uninterrupted operation, perfect security, error-free functionality, specific creator earnings, or that every policy violation will be detected. Nothing in these Terms excludes legal rights or warranties that cannot lawfully be excluded.

26. Limitation of Liability

To the fullest extent permitted by law, Phoenix Media Worldwide LLC and its officers, employees, and service providers will not be liable for certain indirect, incidental, consequential, or punitive damages arising from Platform use. Nothing in this provision limits nonwaivable consumer rights, statutory privacy rights, protections owed to minors, liability for the Company’s own wrongful conduct where non-excludable, or other liabilities that applicable law does not permit to be limited.

27. Indemnification

Subject to applicable law, adult users may be required to indemnify Ping Pong for third-party claims arising directly from their unlawful conduct, infringing content, or material breaches of these Terms. Verified parents or legal guardians of authorized minor accounts accept the responsibilities and the strictly limited indemnification described in Sections 1A and the Parent or Guardian Consent and Responsibility Addendum. No parent, minor, or other user waives nonwaivable rights or releases Ping Pong from its own legal obligations.

28. Governing Law

These Terms are governed by the laws of the State of Florida, without regard to conflict-of-law principles, except where federal law or mandatory consumer-protection law provides otherwise.

29. Dispute Resolution

Before filing a legal claim, the parties are encouraged to attempt good-faith informal resolution through written notice describing the dispute, relevant facts, and requested resolution. This section does not prevent relief where immediate action is legally necessary.

Any binding arbitration or class-action waiver should be implemented only after review by qualified counsel and clear user assent. No arbitration clause is included in this draft package.

30. Changes to Terms or Platform

Ping Pong may update Terms or age-restricted features after suitable notice. Where required, renewed parent/guardian consent must be obtained before material changes affecting teen accounts take effect. Continued use alone is not a substitute for a consent method required by law.

31. Account Deletion and Retention

Adult users may request account deletion through Platform controls or support. Verified parents or legal guardians may request closure of their minor's account and withdraw authorization, subject to identity verification and applicable law. Minor accounts must also have legally required deletion mechanisms; lawful retention exceptions for safety, fraud, legal holds, and records continue to apply.

32. Severability; No Waiver; Assignment

If a provision is unenforceable, the remaining provisions remain effective to the extent permitted by law. Failure to enforce a provision immediately is not a waiver. Users may not assign these Terms without authorization; Phoenix Media Worldwide LLC may assign rights and obligations as part of a lawful corporate transaction.

33. Entire Agreement

These Terms, the Privacy Policy, Community Guidelines, Age & Identity Verification Policy, Parent or Guardian Consent and Responsibility Addendum, Creator Monetization Agreement, Virtual Coins & Gifts Policy, Refund & Billing Policy, and Copyright & DMCA Policy constitute the applicable Platform agreement unless a separate signed agreement applies. If these materials conflict, mandatory protections for minors and applicable law govern.

PING PONG PRIVACY POLICY

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

This Privacy Policy explains how Phoenix Media Worldwide LLC d/b/a Ping Pong collects, uses, discloses, stores, and protects information when users access or use the Platform. The policy should be read together with the Terms of Use and other incorporated policies.

1. Scope and Age Restriction

Ping Pong may offer restricted accounts for users aged 13–17 with verified parent or legal guardian consent where legally permitted. Users under 13 are not eligible; jurisdictions may require higher minimum ages, including for covered social-media platforms in Florida. Adult-only features require separate 18+ verification. Privacy practices for teens differ from those for adults, and parental consent does not waive legal privacy rights.

2. Information We May Collect

Adult account data may include username, name, email, telephone, date of birth, profile details, and login information. Teen accounts should collect only data necessary for eligibility, account operation, safety, and legally required verification. The parent/guardian verification flow may collect adult contact information, verification status, consent time/version, guardian relationship, and a durable audit record; avoid storing unnecessary copies of identification documents.

Identity and age data may include proof of age, verification status, relevant provider token, date-of-birth confirmation, and where justified for adult verification, selfie or identification details. Biometric or ID data from a minor should not be collected unless necessary, disclosed, lawfully authorized, and protected by appropriate safeguards and retention limits.

User content may include posts, videos, photos, comments, profiles, reports, and communications where enabled. Minor accounts must have appropriate private defaults and restricted adult interactions. Private video sessions and their records are adult-only under this draft.

Financial, purchase, gifting, earnings, payout, tax, and refund records are collected for eligible verified adult accounts. Teen accounts must not be enrolled in Coins, Gifts, purchases, private-session charges, or creator monetization under this youth-safety model.

Technical data may include device characteristics, IP-derived approximate location, app version, security logs, error reports, and limited engagement data. Data collection from minors should be minimized, limited to disclosed purposes, and not used for behavioral advertising or profiling that is prohibited by applicable law.

3. How We Use Information

We use information to provide verified eligible accounts, enforce lawful age restrictions, maintain parent consent records, operate age-appropriate features, personalize content where permitted, protect users, respond to reports, prevent fraud, meet legal duties, and provide support. Adult-only payment, streaming, and payout processing must not be applied to teen accounts.

4. Recommendations and Personalization

We may recommend content using permitted content and engagement signals, but teen experiences require age-appropriate defaults. Personalization must not expose minors to adult content, enable prohibited targeting, or rely on prohibited child/teen profiling. Any recommendation controls and advertising practices must match the actual product and law.

5. Artificial Intelligence and Automated Systems

We may use automated systems for video editing, captions, recommendation, moderation, fraud detection, safety detection, search, or media enhancement. Human review may be used where appropriate.

6. Service Providers and Disclosures

We may disclose only data reasonably necessary to service providers supporting hosting, age/guardian verification, communications, safety, moderation, security, and other permitted operations. Providers processing teen information must be subject to appropriate contractual safeguards, access controls, and legally required restrictions.

7. Public and User-to-User Information

Adult account information may be public depending on settings. Eligible minor accounts should be private by default, restrict profile discoverability and adult interactions, and avoid revealing precise location or unnecessary personal information. Any public posting by minors should occur only through a separately reviewed age-appropriate experience.

8. Legal and Safety Disclosures

We may preserve or disclose information when reasonably necessary to comply with law, lawful process, safety obligations, fraud investigations, Platform enforcement, or protection of legal rights.

9. Business Transfers

Information may be transferred in connection with a merger, acquisition, financing, reorganization, sale of assets, or similar corporate transaction, subject to applicable law.

10. Sale, Sharing, and Targeted Advertising

Ping Pong does not intend to sell personal information for money. Teen data must not be used for targeted or behavioral advertising or sold/shared in ways prohibited by applicable law. Privacy rights, opt-out controls, and age-appropriate notices must be provided where required, including restrictions on advertising based on sensitive or minor-user data.

11. Data Security

Ping Pong uses reasonable administrative, technical, and organizational safeguards, which may include encryption, restricted access, authentication, security logging, monitoring, and fraud controls. No system can guarantee absolute security.

12. Data Retention

We retain data only as reasonably necessary for a disclosed purpose, safety, consent auditing, legally required financial records, fraud prevention, disputes, and compliance. Age and parental-

consent information should have documented limits and deletion procedures. Data collected inadvertently from ineligible children must be handled and deleted as applicable law requires.

13. Account Deletion

Users and, where law permits or requires, verified parents/guardians may request access, correction, withdrawal of consent, or deletion of an eligible minor's information and account. These requests must be easy to initiate and handled within applicable statutory timeframes, subject to narrow lawful exceptions.

14. Privacy Rights

Applicable law may grant account holders, parents, and minors rights to review, correct, delete, or obtain data; limit profiling, advertising, and certain disclosures; and appeal denials. Rights may differ by jurisdiction and age. Ping Pong must verify requesters appropriately without using unreasonable identity-data collection.

15. Facial, Biometric, and Verification Information

Biometric and facial technologies must be used only where justified and legally permitted, with any required notice, valid consent, retention controls, and restrictions on third-party use. For minors, prefer less intrusive verification; no biometric processing should be presumed authorized solely because a guardian approves the account.

16. Location Information

Ping Pong may process approximate location inferred from network or device information. Precise location should be accessed only when required for a feature and authorized through device permissions.

17. Communications

We may send service, policy, account-safety, consent, and verified-guardian notifications. A parent or guardian may receive age-related eligibility, safety, permission withdrawal, or account deletion notices where required or appropriate. Marketing to minors is subject to additional restrictions.

18. International Processing

Information may be processed in countries other than the user's country. Appropriate safeguards will be used where required for cross-border transfers.

19. Changes to this Privacy Policy

Material changes may be communicated through the app, website, email, or another reasonable method. The effective date at the top of this policy identifies the current version.

20. Privacy Contact

Phoenix Media Worldwide LLC d/b/a Ping Pong
Website: https://pingponglivechat.com
Email: [INSERT OFFICIAL PRIVACY EMAIL]
United States

21. Parent/Guardian Consent Records and Teen Safety

Before activating a minor account, Ping Pong should obtain and document affirmative verifiable consent from an authorized parent/guardian. The teen and guardian should receive readable information about eligible features, restricted functions, privacy defaults, moderation, reporting, and the process to revoke consent. The Company will not interpret a guardian's acceptance as permission to disregard legal age limits or statutory duties.

If Ping Pong learns that personal information was collected from a child under 13 contrary to the eligibility rule, it will limit access, investigate, and delete or otherwise handle that information as legally required. Contact the privacy team using the published support details to exercise available rights.

PING PONG COMMUNITY GUIDELINES

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

These Community Guidelines define prohibited content and conduct across all public and private areas of Ping Pong. Acceptance of these rules is required before users may create or upload User Content.

1. Age Eligibility and Parent/Guardian Oversight

Users under 13 may not register. Users aged 13–17 need verified parent or guardian authorization and may use only features lawfully available to their age and location. A higher local legal minimum age controls, including for covered social-media platforms in Florida. Adult-only areas, paid gifting, creator monetization, live hosting/guest participation, private video sessions, and unrestricted adult-minor direct messaging are prohibited for teen accounts under this draft.

2. Harassment and Bullying

Harassment, stalking, credible threats, targeted humiliation, repeated unwanted contact, and abusive conduct are prohibited.

3. Hateful Conduct

Content or behavior that attacks, dehumanizes, or targets people based on legally protected characteristics may be removed or restricted.

4. Violence and Threats

Credible threats, coordination of violent wrongdoing, and encouragement of serious real-world violence are prohibited.

5. Sexual Exploitation and Non-Consensual Content

Sexual exploitation, coercion, sexual extortion, trafficking, and non-consensual intimate content are prohibited.

6. Child Safety

Any sexual exploitation, grooming, trafficking, coercion, sexualization, or endangerment of minors is strictly prohibited. Do not solicit minors for private contact, payment, gifts, sexual content, or personal identifying details. Ping Pong may escalate reports to appropriate authorities or legally authorized organizations as required or appropriate.

7. Consent and Privacy

Users may not distribute private intimate material without authorization, threaten disclosure of private material, or publish highly sensitive personal information such as authentication credentials, financial details, or government identification information.

8. Private Sessions

Private sessions are restricted to verified adults aged 18+. All Platform rules apply; a gift or payment never authorizes illegal or harmful behavior or prevents a participant from leaving.

9. Fraud, Scams, and Payment Abuse

Scams, stolen payment methods, gift manipulation, fraudulent chargebacks, creator-earnings manipulation, sham transactions, and off-platform trading of Ping Pong virtual currency are prohibited.

10. Impersonation

Users may not deceptively impersonate individuals, companies, creators, government officials, or Ping Pong personnel.

11. Spam, Bots, and Artificial Engagement

Mass unsolicited messages, unauthorized automation, fake followers, fake views, artificial engagement, bot-driven gifting, and ranking manipulation are prohibited.

12. Illegal and Restricted Activity

Users may not use Ping Pong to facilitate illegal activity or unlawful sale, distribution, or access to prohibited or restricted goods or services.

13. Copyright, Trademark, and Music

Users must have sufficient rights or authorization for videos, music, images, trademarks, and other materials they upload or broadcast.

14. Deceptive or Manipulated Media

Content intentionally designed to deceive users in a way likely to cause serious harm may be removed, restricted, or labeled.

15. Reporting and Blocking

Users may report harmful content, minor-safety risks, or abusive behavior and block other users through available controls. Verified guardians should have an accessible path to report concerns and request withdrawal or deletion. Deliberate block evasion or abuse of reports may result in enforcement.

16. Moderator Powers

Hosts and moderators may be given tools to mute, remove, block, manage comments, and control guest participation. These tools must not be used to facilitate fraud, abuse, or harassment.

17. Enforcement

Actions may include warning, content removal, live restriction, messaging restriction, gift restriction, monetization restriction, temporary suspension, or permanent termination. Severe violations may result in immediate action.

18. Appeals

Certain enforcement actions may be eligible for appeal. Appeals do not guarantee restoration.

19. Safety Contact

Phoenix Media Worldwide LLC d/b/a Ping Pong
Website: https://pingponglivechat.com
Email: [INSERT OFFICIAL SAFETY EMAIL]
United States

20. Special Rules Protecting Teen Accounts

No adult may use Platform features to solicit a minor's personal contact information or move an interaction to a hidden channel. Teen account visibility and interactive access are restricted by default; attempts to evade age-based limitations, send a Gift on behalf of a minor, or participate in an adult-only room using a minor account are prohibited. Guardian permission does not alter these restrictions.

PING PONG AGE & IDENTITY VERIFICATION POLICY

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

1. Purpose and Eligible Ages

Ping Pong may support users aged 13–17 through a verified parent/guardian authorization process, only where law allows, and adults aged 18+. Children under 13 cannot open accounts. A higher local age minimum controls. In jurisdictions applying Florida Statutes § 501.1736 to Ping Pong, no accounts for users under 14 and parental consent is required at ages 14–15. The Company must independently satisfy applicable legal age, privacy, and platform rules.

2. Age and Parent/Guardian Verification

Before a teen account is enabled, the Platform must verify age eligibility and affirmative parent or legal guardian authorization through appropriate means, record the consent version and time, and make withdrawal feasible. Adult verification may also be required before restricted features, live participation, private sessions, creator monetization, or payouts. A failed or missing verification prevents account activation or feature access.

3. Privacy-Conscious Verification Methods

Verification may include reliable age assurance, adult guardian validation, guardian contact confirmation, provider tokens, limited identity records, and manual fraud review. Use the least intrusive lawful approach, apply heightened restrictions to minor ID and biometrics, and retain only what is justified. Do not treat a minor's own checkbox as verified parental consent.

4. False or Misused Identification

Users and guardians may not submit another person's identification, falsify age or guardianship, or circumvent identity/consent checks. A parent may not create or share their own account to let a child evade an age prohibition.

5. Ineligible, Unverified, or Withdrawn-Consent Accounts

If Ping Pong reasonably believes a user is younger than the legal or Platform minimum, lacks required guardian consent, or improperly accessed an adult-only feature, it may restrict the account, seek verification where allowed, provide required notices and dispute rights, or terminate the account and delete information as required by local law.

6. Protection of Verification Data

Verification data will be used for eligibility, security, fraud prevention, consent recordkeeping, and compliance only as described in the Privacy Policy. Access is limited to authorized people and providers; encryption, retention limits, and security logs should protect sensitive documents and any biometric data.

7. Creator Verification

Only verified adults aged 18+ may join creator monetization or receive payouts. Guardian consent does not grant payout eligibility to minors.

8. Reverification

Ping Pong may require reverification when documents expire, account information materially changes, suspicious activity occurs, or legal requirements change.

9. Verification Contact

Phoenix Media Worldwide LLC d/b/a Ping Pong
Website: https://pingponglivechat.com
Email: [INSERT VERIFICATION OR SUPPORT EMAIL]
United States

10. Guardian Consent Withdrawal and Account Closure

A verified parent or legal guardian may withdraw authorization and request account closure or privacy rights through published controls or support. Ping Pong must honor applicable jurisdiction-specific deadlines, preserve legal rights of minors, and implement deletion requirements and lawful exceptions.

PING PONG CREATOR MONETIZATION AGREEMENT

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

This Agreement applies to eligible creators participating in Ping Pong monetization programs. It supplements the Terms of Use and other Platform policies.

1. Eligibility

Creators who receive monetization or payouts must be verified adults at least 18 years old with a valid eligible account, complete identification and required tax/payout details, and comply with Platform and regional rules. Guardian approval does not permit a minor to monetize under this agreement.

2. No Guaranteed Acceptance or Earnings

Meeting minimum criteria does not guarantee acceptance. Creator revenue is not guaranteed and may vary based on valid user activity and applicable program rules.

3. Revenue Share

Under the current program, eligible creators may receive 70% of Eligible Net Gift Revenue and Ping Pong may retain 30% of Eligible Net Gift Revenue.

4. Eligible Net Gift Revenue

Eligible Net Gift Revenue means qualifying revenue attributable to valid gift transactions after applicable deductions, which may include refunds, chargebacks, fraud, unauthorized payments, taxes, payment-processing costs, app-store fees or commissions, required withholding, promotional credits, and other disclosed transaction-level deductions.

5. No Ownership of Gross Coin Purchase Price

Creators do not acquire ownership of the full amount paid by a user for coins. Coin purchases and creator gift compensation are separate Platform transactions.

6. Gifts and Creator Compensation

Virtual gifts are Platform digital items and not direct cash transfers from users. Valid gifts may generate creator compensation under this Agreement.

7. Payout Rules

Ping Pong may establish minimum payout thresholds, payout schedules, supported methods, verification procedures, reserves, and regional availability.

8. Holds and Adjustments

Payments may be held or adjusted for fraud investigations, chargebacks, identity issues, payment-provider reviews, policy violations, legal requirements, technical errors, duplicate transactions, or accounting corrections.

9. Prohibited Monetization Conduct

Creators may not self-gift through deceptive accounts, coordinate fraudulent gifting, use stolen payment methods, buy fraudulent engagement, manipulate battles or rankings, create sham transactions, or encourage abusive chargebacks.

10. Taxes

Creators are responsible for their own tax obligations except for amounts Ping Pong is legally required to collect or withhold. Tax documentation may be required before payout.

11. Independent Status

Creator participation does not create employment, partnership, agency, joint venture, or franchise status unless a separate signed agreement expressly provides otherwise.

12. Private Session Monetization

Where authorized, creators may designate a Platform-approved virtual gift as an entry requirement for a private session. The requirement must be displayed before access. All Community Guidelines continue to apply.

13. Promotions and Bonuses

Ping Pong may offer bonuses, missions, campaigns, rankings, or promotional creator programs subject to additional terms.

14. Suspension or Termination of Monetization

Monetization may be suspended or terminated for fraud, policy violations, verification failure, payment abuse, security concerns, or legal requirements.

15. Account Termination and Outstanding Balances

Amounts determined to be fraudulent, invalid, reversed, or otherwise ineligible may be cancelled where legally permitted. Valid amounts legally owed will be handled under applicable payout rules and law.

16. Changes to the Program

Future eligibility rules, payout timing, thresholds, and monetization methods may change. Material changes should be disclosed before becoming effective. Any change to the 70/30 structure should be clearly disclosed before it applies to future qualifying transactions.

17. Transaction Records

Ping Pong may maintain transaction-level records of gifts, creator shares, Platform shares, deductions, adjustments, refunds, chargebacks, and payouts.

PING PONG VIRTUAL COINS & GIFTS POLICY

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

1. Nature of Coins

Coins are licensed digital items for use within Ping Pong. They are not legal currency, deposits, cryptocurrency, securities, investments, or bank accounts.

2. Purchasing Coins

Only eligible verified adults aged 18 or older may purchase Coins, through lawful payment methods permitted for the relevant device, region, and distribution channel. Pricing is disclosed before payment. Minor accounts do not have buying capability under this draft.

3. Use of Coins

Coins may be used only for authorized Ping Pong features and may not be privately sold, externally traded, or used as independent currency.

4. Virtual Gifts

Eligible verified adults may redeem Coins for approved digital Gifts, animated Gifts, battle Gifts, or other Platform items. Minor accounts cannot send, buy, redeem, or receive monetized Gifts under this draft.

5. Gift Value

The Coin price shown at the time of gifting controls the user transaction. That Coin amount does not necessarily equal creator compensation.

6. Gifts Are Not Direct Cash Transfers

Sending a gift is use of a Platform digital item, not a direct transfer of cash or ownership rights to the recipient. Creator compensation is calculated separately.

7. Gift Combos

Gift-combo features may allow eligible adults to send x2, x10, x99, or other sequences. The user remains responsible for authorized transactions through an adult account, subject to consumer rights and applicable law. Such features are not available on teen accounts.

8. Battle Gifts and Scores

Gifts may contribute to battle points or engagement metrics. Battle points have no independent monetary value.

9. Private-Access Gifts

Eligible verified adult creators may designate an approved virtual Gift as entry to an adult-only private session. Minors cannot enter these sessions, regardless of parental authorization or payment. A Gift does not entitle any participant to illegal or restricted conduct.

10. Expiration

Purchased credits will not expire where applicable app-store rules prohibit expiration. Any other expiration rule must comply with applicable law and payment-platform requirements.

11. Fraud and Reversals

Coins or gifts obtained through fraud, stolen payment methods, payment reversals, technical manipulation, or unauthorized transactions may be cancelled or reversed where legally permitted.

12. Account Termination

Treatment of unused Coins after account termination is subject to applicable law, app-store requirements, and the reason for termination.

13. Changes

Ping Pong may change future gift designs, pricing, packages, availability, and promotions. Completed valid transactions will not be retroactively altered except where legally required.

PING PONG REFUND & BILLING POLICY

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

1. General Rule

Digital items delivered or consumed may be nonrefundable as permitted by law and app-store/payment-provider rules. Payments initiated by an ineligible minor or unauthorized by the legal account holder must be reviewed under applicable consumer-protection, refund, and unauthorized-charge requirements; this Policy does not remove statutory rights.

2. Apple Purchases

Purchases processed by Apple are subject to applicable Apple billing and refund rules, and refund requests may need to be handled through Apple.

3. Google Play Purchases

Purchases processed through Google Play are subject to applicable Google Play billing and refund requirements.

4. Other Payment Providers

Transactions legally permitted to use another provider may be subject to that provider's terms and dispute procedures.

5. Duplicate or Erroneous Charges

Users should contact support regarding duplicate charges, incorrect amounts, missing Coins, or technical transaction errors. Ping Pong may review transaction records before issuing an adjustment.

6. Unauthorized Transactions

Suspected unauthorized payment or account activity, including any purchase associated with a teen account, should be reported promptly. Ping Pong may secure the account, investigate, apply lawful reversals, and coordinate with the relevant provider. Legal protections for unauthorized charges remain intact.

7. Consumed Gifts

A valid gift already sent and consumed is generally non-refundable by Ping Pong except where required by law or payment-platform rules.

8. Chargebacks

Fraudulent or abusive chargebacks are prohibited. Legitimate disputes should be raised through support or the applicable payment provider. Repeated disputed transactions may trigger account review.

9. Creator Adjustments

Where a transaction is refunded, reversed, charged back, or determined fraudulent, associated creator earnings may be adjusted where legally permitted.

10. Subscriptions

If Ping Pong offers subscriptions, price, billing frequency, renewal terms, and cancellation procedures will be disclosed before purchase. Cancellation generally prevents future renewal and does not automatically refund prior billing periods unless required.

11. Billing Contact

PING PONG COPYRIGHT & DMCA POLICY

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

Ping Pong respects intellectual-property rights. Users may not upload, stream, distribute, or otherwise use content that infringes another person's copyright, trademark, or other intellectual-property rights.

1. User Responsibility

Users should upload only content they own, are licensed to use, have permission to use, or are otherwise legally authorized to use.

2. Copyright Takedown Notices

A copyright owner or authorized representative may submit a written notice identifying the copyrighted work, the allegedly infringing material and its location, contact information, a good-faith statement, a statement of accuracy and authority under penalty of perjury, and a physical or electronic signature, as required by applicable law.

3. Removal or Restriction

Ping Pong may remove or disable access to material after receiving a legally sufficient complaint and may take other action where appropriate.

4. Notice to User

Where appropriate, Ping Pong may notify the affected user that material was removed because of a copyright complaint.

5. Counter-Notification

A user who believes content was removed because of mistake or misidentification may submit a legally sufficient counter-notification where permitted by U.S. copyright law.

6. Repeat Infringers

Ping Pong may terminate accounts of repeat infringers in appropriate circumstances.

7. Trademark Complaints

Trademark complaints may be submitted where content is alleged to create unauthorized source confusion or misuse protected marks.

8. False Claims

Users and complainants should not knowingly submit materially false intellectual-property claims.

9. DMCA Designated Agent

For U.S. DMCA safe-harbor purposes, qualifying service providers should maintain a current designated-agent registration with the U.S. Copyright Office and publicly display matching agent contact information.

PING PONG PARENT OR GUARDIAN CONSENT AND RESPONSIBILITY ADDENDUM

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

1. Who Must Agree

This Addendum must be accepted by a verified parent or legal guardian before a user aged 13–17 may open an age-eligible Ping Pong account. The person consenting must be at least 18 and legally authorized to act for the minor. It does not apply where applicable law prohibits the account, regardless of parental consent.

2. Affirmative Consent and Record

The consenting adult authorizes an age-restricted account after receiving the Terms, Community Guidelines, Privacy Policy, feature limits, and a meaningful notice of teen data practices. The Platform may verify the adult's identity and relationship using reasonable means and records the authorization and policy version. Consent is not effective until the verification process is completed.

3. Guardian Supervision and Responsibility

By accepting, the guardian agrees to reasonably supervise the minor's permitted Platform activity, discuss online risks, protect access credentials, provide truthful information, report hazards promptly, and support compliance with Platform rules. To the fullest extent permitted by law, the guardian accepts responsibility for violations and wrongful conduct arising from the minor's authorized account and may be responsible for legally recoverable third-party harm caused by that conduct, subject to applicable law and defenses.

4. Lawful Indemnity and Nonwaivable Duties

Where legally enforceable, the guardian agrees to defend, reimburse, or indemnify Phoenix Media Worldwide LLC against third-party claims and reasonable costs that arise directly from the minor's unlawful content, infringement, misconduct, or material breach and are legally

attributable to the guardian or minor. This clause excludes the Company's own negligence, wrongful acts, breaches of privacy or safety law, and all nonwaivable rights, liabilities, and consumer protections. No promise of absolute parental liability is made.

5. Teen Restrictions

The minor account is not eligible for paid gifts or Coins, recurring purchases, private video chats, monetized creator status, payouts, or live hosting/guest participation under this draft. Messaging and discoverability must be controlled, with restrictions on adult-minor contact and age-inappropriate content. The Company may suspend any feature that cannot be offered safely and lawfully.

6. Withdrawal, Closure, and Reporting

The guardian may withdraw consent and request the minor's account be closed through the published controls or official support contact; the Company will comply with mandatory statutory timelines and deletion rules. Minors retain all rights guaranteed by law. The guardian should immediately report exploitation, threats, suspected impersonation, or unauthorized activity using the Platform's reporting controls.

7. Suggested In-App Guardian Consent Wording

"I confirm I am at least 18 years old and the parent or legal guardian of the minor identified in this registration. I have read and agree to the Ping Pong Terms of Use, Privacy Policy, Community Guidelines, and Parent or Guardian Consent and Responsibility Addendum. I authorize the minor to use only the legally available, age-restricted features and agree to reasonable supervision and the responsibilities described in those documents. I understand this consent does not permit age-restricted features, override local laws, or waive rights or duties that cannot legally be waived. I know how to withdraw consent or request closure of the account."

DEVELOPER / APP STORE IMPLEMENTATION CHECKLIST

Operational controls that should exist before launch

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

This legal draft requires meaningful engineering and moderation changes before public release, especially for a platform offering user-generated video, live sessions, payment features, age-restricted access, and verified parental consent. The following checklist must be completed before any under-18 rollout.

Account & Consent

- Obtain affirmative acceptance of Terms and Community Guidelines from eligible adults; for users 13–17, obtain and log verified guardian authorization and show age-appropriate notices before account activation.
- Implement reliable age/location eligibility checks and enforce local restrictions, including Florida § 501.1736 for covered social-media platforms; do not assume verified parental permission always permits an account at age 13.
- Offer in-app account deletion and appropriate parent/guardian withdrawal and closure controls, with jurisdiction-specific processing deadlines and deletion of minors' data as required.
- Verify that teen accounts are private by default and that inappropriate adult-teen contact, adult content, and live/private rooms are inaccessible to minors.
- Do not enable purchases, Coins, Gifts, subscriptions, creator payouts, or adult live participation for minor accounts in this youth-safety configuration.
- Record guardian verification method, consent timestamp/version, changes to permissions, withdrawal, and account deletion securely; provide appeal/verification routes where required.

UGC Safety Controls

- Provide user reporting for videos, live streams, profiles, comments, messages, private-session conduct, and other relevant UGC.
- Provide user blocking that meaningfully prevents unwanted interaction.
- Provide moderation queues, documented escalation, and response processes.
- Provide filtering or detection mechanisms appropriate to the content type and risk.
- Display reachable support/contact information.

Live & Private Session Controls

- Provide host/moderator controls to mute, remove, block, and manage guests.
- Log important moderation and transaction events.

- Provide a clear way for adult participants to leave private sessions; prevent minor accounts from entering, joining, or hosting these adult-only activities.
- Payments or Gifts never override content, safety, age, or other legal restrictions; parental authorization cannot override restrictions on adult-only features.

Coins, Gifts & Payments

- Use Apple In-App Purchase where Apple rules require it for digital goods or currencies.
- For Google Play, follow the current payment rules applicable to the user region and any alternative-billing program requirements.
- Do not describe Coins as cash, investments, deposits, or cryptocurrency.
- Keep purchased credits from expiring where applicable store rules prohibit expiration.
- Show the Coin price before gifting and clearly separate user purchase price from creator compensation.

Creator Monetization

- Verify every monetizing creator is 18+ and appropriately verified before creator payouts.
- Collect required tax and payout information.
- Calculate the 70/30 revenue split server-side using Eligible Net Gift Revenue, not the gross user purchase price.
- Maintain transaction-level records for gross value, deductions, eligible net revenue, creator share, Platform share, refunds, chargebacks, and payout status.
- Provide fraud and payment-hold controls.

Privacy & Security

- Inventory every category of personal data collected by the app and SDKs.
- Match actual SDK behavior for adult and teen data; document guardian consent handling, minors' data minimization, non-targeted ads, private defaults, disclosure safeguards, and heightened age-related privacy obligations.
- Use least-privilege administrative access and maintain audit logs.
- Define data-retention periods and deletion workflows.
- Provide legally required privacy rights mechanisms where applicable.

Copyright / DMCA

- Appoint a DMCA designated agent if seeking applicable U.S. safe-harbor protection.
- Register and keep the agent information current with the U.S. Copyright Office.
- Publish matching designated-agent information on the Ping Pong website.
- Maintain takedown, counter-notice, and repeat-infringer procedures.

App Store Submission

- Ensure app-store age ratings, screenshots, teen access claims, content controls, safety reporting, location restrictions, and privacy disclosures match the working code and review requirements.
- Provide reviewer access or demo credentials if required by the store review process.

- Do not advertise or implement a digital-purchase flow in a way that conflicts with the applicable store rules in the user region.

LAUNCH COMPLETION CHECKLIST

Revision Date: October 27, 2026 | Effective Date: upon publication following required notice and consent

Before publication, fill in every placeholder and complete all operational safeguards. Do not publish these terms as if teen protection, age verification, parent verification, moderation, guardian deletion, or regional blocking works unless it actually does.

Item	Required Before Launch	Status
Official support email	Replace support placeholder	OPEN
Privacy email	Replace privacy placeholder	OPEN
Safety/moderation email	Replace safety placeholder	OPEN
Creator support email	Replace creator placeholder	OPEN
Billing email	Replace billing placeholder	OPEN
DMCA agent name/title	Publish actual agent	OPEN
DMCA physical address	Required for registration/public posting	OPEN
DMCA email	Publish actual address	OPEN
DMCA phone	Publish actual number	OPEN
DMCA registration	Register/update with U.S. Copyright Office if applicable	OPEN
Attorney review	Review youth access, regional age laws, privacy, payments, creator agreement	OPEN
In-app Terms acceptance	Implement before UGC creation	OPEN
Report + block features	Verify operational	OPEN
Account deletion	Verify operational	OPEN
Age / guardian verification	13–17 guardian consent + legal eligibility; 18+ restricted features	OPEN
Apple payment compliance	Verify current implementation	OPEN
Google Play payment compliance	Verify current implementation	OPEN
70/30 server-side ledger	Verify transaction-level calculation	OPEN
Privacy data inventory	Match policy to SDKs and vendors	OPEN
Guardian support contact	Add verified parent/guardian contact and withdrawal process	OPEN
Teen account safety	Private-by-default, adult/minor restrictions, filtering, reporting	OPEN

Regional age rules	Block prohibited age/location combinations (e.g. covered FL accounts)	OPEN
Minor payments/streams gate	Block teen gifting, monetization, LIVE/private features	OPEN
Guardian consent log	Consent verification, version, timestamp, revocation and deletion	OPEN

Source / Compliance Notes

This draft was updated October 27, 2026, with reference to the 2026 Florida Statutes § 501.1736; Eleventh Circuit decision dated October 14, 2026; FTC guidance on COPPA and child-data handling; and Apple App Review Guidelines § 1.2 (user-generated content). These sources describe requirements and risks, not a legal opinion that Ping Pong is automatically covered by any particular law. Re-check applicable law and current Apple/Google requirements before publication and when introducing teen accounts.

Key publication conditions: if Florida § 501.1736 applies, a covered Platform cannot enroll Florida residents under 14 even with guardian consent; 14–15-year-olds need guardian consent. A social/UGC app must implement content filtering, reporting, blocking, and contact channels; teen features must be gated and protected by privacy and moderation controls; and the Company cannot shift its own legal duties to parents through contractual language. Suggested source URLs: https://www.flsenate.gov/Laws/Statutes/2026/0501.1736 ; https://developer.apple.com/app-store/review/guidelines/ ; https://www.ftc.gov/business-guidance/resources/complying-coppa-frequently-asked-questions .
